ErP Product Information

Hereby,Huawei Technologies Co.,Ltd. declares that the product meets requirements of the directive 2009/125/EC and its implementation regulation (EC) NO 1275/2008 amended by (EC) 278/2009,(EC) 642/2009,(EU) 617/2013,(EU) 801/2013,and its implementation regulation (EC) NO 278/2009.

AS of 1 January 2015,the following information for network equipment shall be visibly displayed on the manufacturers' freely accessible websites:

a)for each standby and/or off mode and the condition providing networked standby into which the equipment is switched by the power management function or similar function:

— the power consumption data in Watt rounded to the first decimal place,

— the period of time after which the power management function, or a similar function, switches the equipment automatically into standby and/or off mode and/or the condition providing networked standby;

1 the power consumption of off mode: 0.2 W

2 Network standby

Type of Network port	power consumption of Networked standby (W)	Time(S)
DSL	9.2	1
FE	9.2	1
Wifi	9.9	1

b)The power consumption of product in networked standby if all wired network ports are connected and all wireless network ports are activated: 10.2W

(c) guidance on how to activate and deactivate wireless network ports.

Type of wireless network ports	Guidance
Wifi	Press and hold the WLAN button on its side panel to turn on or off WLAN
